

When can I request the commission for my affiliate sales?

- 2022-12-17 - Affiliates

To request the deposit of your affiliate commission, you must have achieved at least two valid sales. Please keep in mind that the time period of 90 days must have passed since your last sale. The sales validity check is always done at the beginning of each month, where all sales from the previous month that are older than 90 days are checked. You can be informed here about when a sale is considered to be valid.
