

Can I downgrade my plan?

- 2021-08-28 - WooCommerce eShop

Unfortunately a downgrade is not possible through the platform.

If you wish to downgrade to a smaller plan, you need to create a new account and cancel the old one. If you need to enter the same company name, you need to wait for 30 days. Then the eShop name will be released from your old plan, and you can use it to your new eShop plan.
