

## How does the invoicing process work for Papaki's Resellers?

- 2021-07-27 - Domain Resellers

As a Reseller, you will be receiving your invoices for the domains that you will be buying, directly from Papaki. The invoices are sent by e-mail, in .pdf form, towards the email address that you have used on your Papaki billing contact. In addition, if you place your clients' orders manually through your Papaki Control Panel, you can choose your invoices to be issued on different billing data for each order.
